

Judith Pinkerton, LPMT, MT-BC
Founder
Music 4 Life® Center

INTRODUCTION

Judith Pinkerton’s passion for healing music was ignited when her solo violin music replaced medication post-surgery in a hospital. Since then, she founded and managed a nonprofit music therapy clinic and Music 4 Life® over the past 25 years. As an author, recording artist, continuing education trainer, radio show host, and licensed, board-certified music therapist, Judith developed the Music 4 Life® Music Medicine protocol in at the same time performing on violin with symphonies from Switzerland to Alaska as well as dozens of stars on the Las Vegas strip, including Metallica, Barry Manilow, Andrea Bocelli, and Natalie Cole. Today Judith heads up Music 4 Life® Center, using tremendous advocacy that resulted in the State of Nevada signing into law music therapy state licensure which she is the first to receive in the USA. As a TEDx speaker, she trains people around the globe about healthy listening habits for a balanced music diet in her TEDx Talk entitled “Music Powers Potential.”
